ManyBooks is one of the best resources on the web for free books in a variety of download formats. There are hundreds of books available here, in all sorts of interesting genres, and all of them are completely free. One of the best features of this site is that not all of the books listed here are classic or creative commons books. ManyBooks is in transition at the time of this writing. A beta test version of the site is available that features a serviceable search capability. Readers can also find books by browsing genres, popular selections, author, and editor's choice. Plus, ManyBooks has put together collections of books that are an interesting way to explore topics in a more organized way.

Not a lot to add to what is on other reviews which I think fairly describe the pro's and con's of this printer. This printer replaces a Xerox 8500 which broke down and would have cost more than the Lexmark C544DN to repair. The Xerox color was subpar, especially compared to the Lexmark, which I hope will maintain its color accuracy.
